Career talk

For: interested students, PhD candidates and Postdocs

Are you wondering how your life will turn out? Whether to stay in academia or whether to go to industry? It can be interesting to see how the career of other people developed. Therefore we organize career talks from renowned people in the field. Come along to this interactive online meeting, listen and ask questions that interest you in an informal context.

„Controlling Light and Matter with Lasers: A Journey in Ultrafast Science“

Date: Thursday, 17th July 2025

Time: 10 am

Location: zoom - online
